

In a world that goes faster and faster, attention to detail is increasingly scarce. It is thus of great importance in a massive consumption based system to mark up our individuality, our singularity.

Pouma Woods puts service quality at the heart of customer satisfaction. Our very challenge remains the suggestion of rare wood species and precious stones to our clientele. Our slogan: « Luxury, having options ». We combine Traditions throughout the different wood species, Expertise with partners possessing 22 years of experience in the wood sector, and also Glamour thanks to the alchemy between heritage and beauty. A product's perfection is no longer enough, luxury's buyers expect a custom made service.

OUR CORE VALUES ARE EXCELLENCE, CREATIVITY AND OPEN-MINDEDNESS

With an unwavering quest to offer the highest quality service in the market, we are constantly pushing our limits towards Excellence.

Creativity summarizes our ability to innovate in the market with safe products that meet customer expectations.

Open-mindedness defines the fact that we thoroughly work according to our consumers' demands.

OUR ETHICAL PRINCIPLES ARE ACCOUNTABILITY, RESPECT AND INTEGRITY

The traceability of woods provided by suppliers is ensured for it is made from a legal market where companies adhere to standards and decrees governing deforestation.

Moreover a real focus is put on customer experience with regards to customers' complaints handled on time in terms of service quality, delivery, manufacturing time, monitoring post-delivery satisfaction.

Acting with integrity is a major asset for expansion customer network expansion.

From an economic perspective, Pouma Woods is a cabinet design agency. We design customized products geared towards customer needs.

We are specialized in the manufacture of woodworking and joinery products for a selective clientele.

We offer a catalog of over 70 references with leading products comprised of interior doors and exterior entrance doors, custom kitchens, dressings, wood cladding and skirting. On the other hand with our expertise we can also manufacture windows and interior furnishings.

From initial demand to product delivery, customers do not only enjoy a reactive service through company presentation, accomplishments' portfolio and catalog but also immediate answers according to their requirements.

Before any quotation's proposal is being made, a team is deployed not only to study the environment, to design and to take measurement of housing and preparing technical conditions for product installation, but also to advise the client regarding the environment and the ecosystem where the product is to be used.

Studies allow us to give an accurate view of the customer timber's essence to choose according to fungal resistance, insect resistance, termite resistance, but also how it fits in the environment.

Once the quote is accepted and the order form received, we require 60% of the total estimate to start manufacturing the product. The remaining 40% is to be paid at the time of delivery.

Our estimates take into account the transport costs between the factory of manufacture and the place of delivery. We are able to deliver in Cameroon and throughout Central Africa.

We cannot talk of our business environment without mentioning our customer approach, which is essentially relational. Our clientele mainly works on word of mouth, which implies that a satisfied customer tends to show more enthusiasm to those around him.

Pouma Woods provides a special touch to its products, signature that outstands both local craftsmen and industrial producers. We offer luxury at small prices with rare wood species, a panel composed mainly of Wenge, Ebony, Doussie, Iroko, Pashiloba, Movingui, Bilinga, Padouk and Dabema essence.

Faithful to our policy geared towards Made In Cameroon products, we give access to wood products from tropical forests and manufactured by local workforce.

Furthermore «humanized» service is what we do in the sense that every customer who requests our services makes us a party to achieve his safe haven. It requires thorough customization of product through the range of colors, the choice of locksets and timber quality.

Monarchs

Full entry doors

These robust gates serve as ornaments and shields for your homes, offices, establishments, institutions and hotels.

Our doors are exclusively made out of solid wood. We use Ebony, Doussie, Padouk, Iroko species, that are grown under the less clement climates of equator.

Our models are distinguished by level of completion, security, insulation, comfort and aesthetics. All finishes are available, with a focus on a wide range of colors and styles.

True to our commitment to register on high ends, each door is custom made and tailored to the customer's home.

Beyond our standard doors, we also offer our clients, not only technical doors of great performance meeting requirements in terms of comfort and safety but also armored doors that benefit from the CNPP certification, a pledge of highest security.

Empresses

Glass doors entrance

Our doors are solid wood exclusively. We use essences such as the EBONY, DOUSSIE, PADOUK, BILINGA, IROKO.

These products are conciliators of solid doors and glass doors.

- In terms of safety, we propose single or double glazing, puff glazing, burglary retardant glazing by ensuring the quality of insulation and comfort, but also give the opportunity to our customers to choose a model offering the following features: Glazing and insulating panel, double lip seal/tightness, sound reduction.
- In terms of esthetics, our models offer characteristics ranging from frosted glass, silkscreen, and passage of light to stained glass.

Beyond our standard doors, we also offer our clients, not only technical doors of great performance meeting requirements in terms of comfort and safety but also armored doors that benefit from the CNPP certification, a pledge of highest security.

Amazons

Indoor doors

This is an interior door for quietness that we can do, a propylea for the mind, an inspiration to your office, and an absolute guarantee of rest in your bedroom. No matter the dream, with us it becomes a reality.

These doors are solid wood exclusively made up of WENGE, EBONY, DOUSSIE, IROKO, MOVINGUI and PADOUK essences and accessible finishes with wax and oils for exotic wood.

There are three types of amazons doors that meet the A2P BP3 Standards notably Acoustic doors and Security doors with different opening types :

- Swing
- Swivel
- Sliding brick partition

Beyond our standard doors, we also offer our clients, not only technical doors of great performance meeting requirements in terms of comfort and safety but also armored doors that benefit from the CNPP certification, a pledge of highest security.
